

**GLAUCOMA RESEARCH
SOCIETY of CANADA**

Annual General Meeting

Tuesday, October 19, 2010

CNIB, 1929 Bayview Avenue, Toronto

Refreshments 5:45 pm Business Meeting 6:30 pm

Feature Presentation: Glaucoma: Exposing & Combatting the Silent Thief in the Night

Did you know that glaucoma is one of the leading causes of blindness world-wide?

Most types of glaucoma cause painless loss of vision with no symptoms early on. By the time someone detects visual loss, the disease is usually advanced and the visual disability severe.

Come find out more about this global problem as Dr. Yuen talks about the disease process, risk factors, diagnosis, treatment, cutting-edge research, and screening recommendations.

Plus at the Annual General Meeting

- Learn about the latest developments in glaucoma research
- Ask leading ophthalmologists questions about glaucoma

Dr. Darana Yuen completed her Ophthalmology residency at the University of Western Ontario in 2009, and a fellowship in Glaucoma at the University of Toronto under the mentorship of Dr. Trope and Dr. Buys in 2010.
