

Glaucoma Research  
Society of Canada

Imagine Your Happiness

*You're Invited!*

**Glaucoma Research Society of Canada & Santen Canada Inc.**  
will host the Society's Annual Meeting of Supporters  
Online as a Live Webinar

**WEDNESDAY, OCTOBER 6, 2021 at 7pm EST**

Featuring Dr. Enitan Sogbesan presenting  
the 11<sup>th</sup> Annual Albert Waxer Lecture  
*Creating a Virtual Reality App for Patient Education,  
Treatment Adherence & Quality of Life*

Dr. Enitan Sogbesan will talk about his research project, *Creating a Virtual Reality App for Patient Education, Treatment Adherence & Quality of Life* – one of this year's GRSC project grant recipients!  
(You can read more about Dr. Sogbesan's project in the enclosed Research Summary Report)

The application (app) uses virtual reality goggles to mimic what a glaucoma patient sees as vision deteriorates. Dr. Sogbesan hopes his app will encourage new patients to stay on track with their daily medication regime. He expects it will also build empathy among caregivers and medical providers for what glaucoma patients experience.

Following his lecture, Dr. Sogbesan will be joined by some of Canada's leading glaucoma specialists to answer your questions live!

Dr. Sogbesan, MBBS, MSc, FRCSC, is the Postgraduate Ophthalmology Residency Program Director and an Associate Professor at McMaster University in Hamilton, Ontario. He has international experience and his research papers have appeared in publications from Nigeria, Cambodia, Thailand, UK, USA, and Canada.

*We are thrilled to have such an internationally renowned glaucoma expert deliver this lecture and hope that you can join us!*
